Cervical Collar, Long Board, & Short Spine Board  
or Extrication Vest Spinal Immobilization  
Performance Evaluation**

Candidate #1 Name: \_\_\_\_\_

Candidate #2 Name: \_\_\_\_\_

Percent Required to Pass: See Below

Objective: Emergency Care 12<sup>th</sup> edition Chapter

Equipment Required: Cervical Collars, short spine board/extrication vest, long board, padding material, head immobilization equipment and straps

**Read instructions to Candidates**

Each candidate will have at least one opportunity to function as team leader during this evaluation. Given the appropriate equipment the team will successfully demonstrate their ability to correctly measure and apply a cervical collar and complete full spinal immobilization. Also given: you have successfully completed the appropriate patient assessment.

1st Attempt		2nd Attempt		Skill Checklist
P	F	P	F	
<b><u>Performs cervical collar application and spinal immobilization on standing patient: Candidate #</u></b>				
_____	_____	_____	_____	1. Directs partner to take manual stabilization
_____	_____	_____	_____	2. Correctly measures and applies cervical collar
_____	_____	_____	_____	3. Places backboard behind patient
_____	_____	_____	_____	4. Takes correct hand position on the backboard
_____	_____	_____	_____	5. Lowers patient safely under the direction of the person stabilizing head (80% 4 of 5)
<b><u>Performs cervical collar application and spinal immobilization on supine patient: Candidate #</u></b>				
_____	_____	_____	_____	1. Directs partner to take manual stabilization
_____	_____	_____	_____	2. Correctly measures and applies cervical collar
_____	_____	_____	_____	3. Places backboard parallel to patient
_____	_____	_____	_____	4. Prepares padding for the backboard
_____	_____	_____	_____	5. Performs safe log roll while maintaining head in neutral alignment
_____	_____	_____	_____	6. Log rolls patient back onto board while maintaining head in neutral alignment
_____	_____	_____	_____	7. Secures torso and legs to the board correctly with chosen straps
_____	_____	_____	_____	8. Secures head to board while maintaining head in neutral alignment (75% 6 of 8)
<b><u>Performs cervical collar application and short spine board/extrication vest application: Candidate #</u></b>				
_____	_____	_____	_____	1. Directs partner to take manual stabilization
_____	_____	_____	_____	2. Assesses PMS in all extremities - PMS a & p administration of any device
_____	_____	_____	_____	3. Places appropriate device behind patient
_____	_____	_____	_____	4. Team brings the patient vertical
_____	_____	_____	_____	5. Correctly measures and applies cervical collar
_____	_____	_____	_____	6. Secures torso
_____	_____	_____	_____	7. Secures lower extremities
_____	_____	_____	_____	8. Applies padding behind head
_____	_____	_____	_____	9. Secures head to board while maintaining head in neutral alignment
_____	_____	_____	_____	10. Checks PMS in all extremities (70% 7 of 10)
